Freemasons, based in Knutsford, Cheshire, is an exciting new project led by Storlock Ventures. The site itself, rich in character as much as in history, is set within Knutsford's historic silk mill. Built in 1754 as the town's silk mill, it has changed through the years; in 1818 the mill became 3 houses before becoming The Freemason Arms in 1890. Over the years it has changed hands and names, though we have decided in 2015 to revive the historic name as well as the site. We'll be known as, Freemasons.
